Duarte CA 91010

Dear Center for Integrative Oncology,

I am an Energy Medicine and Meditative Practices Specialist and the Lead Organoid Stem Cell Research Scientist for the City of Hope.

My goal is to develop and implement a Whole-Mind-Body Health Healing System where we can offer several modalities of new age healing and spiritual awareness.

Using a variety of homeopathic, meditative, and psychoactive therapies we can harmonize an aspect of the mind that allows the reconnecting of heart and body that restores levels of peace and tranquility absent in the day-to-day life of the cancer patients.

These types of therapies can better prepare the patient's mental state of being and enhance the body's receptibility to current and ongoing medical treatments.

This style of patient care and service offers techniques and procedures that lessen the traumatic impact of the patient's disease and assist in the integration of the body's autoimmune system and their current chemo/radiation treatments.

Some of the healing modalities I practice is Mind, Body, and Soul Integrative Meditations, Usui Reiki, Lemurian Reiki, Violet Reiki, Emerald Healing, Angelic Healing, Crystal Healing, Crystal Energetic Activations, Multidimensional DNA Reconfiguration, Munay-Ki, Arcturian Healing, Benedictine Healing, Arts and Crafts Color Therapies, as well as Unblocking and Alignment of Chakras (body energy sources). Most of these healing modalities are energy medicine that harmonize the mind and emotional body of people having a direct healing effect in the body.

These types of services would help better prepare patients and their family members while receiving treatments for Cancer, Dementia, Alzheimer's, Autistic Spectrum, Depression, Anxiety, and a variety of other mental and health diseases.

Sincerely,

Alejandra Velazquez Ojeda
